

MHATT-CAT 7ID/7BM Digital Camera Download Procedure

General issues with the Kodak DC260 Camera:

- Please use the Ni-MH rechargeable batteries provided in D006.
- Please place the spare set of rechargeable batteries in the charger after recharged batteries are reloaded in the camera.
- The camera can take 14 pictures in high resolution mode.

Camera Download Procedure

1. Connect Camera-PC USB cable to camera
2. Connect Camera-Power Supply cable to Camera
3. Turn Camera on and switch to Connect
4. On Computer, click on MyComputer Icon
5. Click on Kodak DC260... Icon
6. Click on DC260_01 Icon
7. Copy and Paste your images to ZIP or CD-Rom
8. Close all windows once data has been transferred
9. Switch camera to Review and delete all pictures

ZIP disks are available in the stock room as well as CD-R.
The ZIP is drive E:, CD-R drive F:

For questions, inquire to Eric, Dohn or Don.
